Professional **Aquatic Weed Control** Services

Dear Horseshoe Lake Riparian Property Owner,

April 28, 2011

The intent of this letter is to notify you that the Horseshoe Lake Improvement Association has hired Northern Aquatic Services, an herbicide application company for hire, to chemically treat the nuisance exotic aquatic vegetation (Eurasian watermilfoil) in Horseshoe Lake this summer. My treatment will largely be based upon your evolving Aquatic Plant Management Plan. This year the plan calls for the treatment of about 15 acres in several different areas of the lake. The intent of this letter is to notify property owners that a treatment may occur in front of or adjacent to your property. The herbicides I will use are all approved for aquatic use by the Environmental Protection Agency. Any water usage restrictions for the treated area will be posted on yellow signs in that area. The 15 acre treatment will likely occur in late May or early June 2011.

If you have any questions you may contact Northern Aquatic Services at 715-755-3507, or the Wisconsin DNR's Water Resources Management Specialist Jim Cahow at 715-537-5046. Chemical fact sheets are available upon request.

Sincerely,

Dale Dressel
Northern Aquatic Services
